- ◆ Two (2) individual clear Mushroom tip earpieces (both are the same size) \*(Semi-Custom D-Mold Ear Tips (sold separately). Part numbers below.)
- ◆ Left Ear Small - 20712                      Right Ear Small - 20715
- ◆ Left Ear Medium - 20713                      Right Ear Medium - 20716
- ◆ Left Ear Large - 20714                      Right Ear Large - 20717

◆ Clothing Clip

Mushroom Tip Earpieces

\* Semi-Custom D-Mold Ear Tips

## 2. Headset Setup

- A) Wrap the acoustic tube behind your ear, then put the mushroom ear tip inside your ear canal.
- B) Attach the included Clothing Clip to the wire and then to your collar to secure the acoustic tube.
- C) Clip the Multifunction Control Button housing to a shirt. Position the microphone close to the mouth so that it captures your voice. From this one button, a user can answer and end a phone call or control a PTT operation.

A. & B.

- D) Plug the 3.5mm headphone plug into your phone. Make sure it's all the way into the phone.

### Multifunction Control Button for PTT communication

- 1-Open the PTT application/client on phone
- 2-Press and hold to pick up the line and talk
- 3-Release button to release the picked up PTT line

D) Your open air microphone and your Multifunction Control Button. The Multifunction Control Button can also be used as an answer/end button for phone calls.

The Multifunction Control Button functions the same for the 1-wire and the 2-wire headset.

The **Open Air Mic** is operational during phone calls (inbound & outbound) and gives you full duplex communication like any hands-free headset. It is also your microphone during PTT communication.

- ◇ To answer a phone call, tap (a short press and release) the Multifunction Control Button one time.
- ◇ To end a phone call, tap (a short press and release) the Multifunction Control Button one time.
